Once logged in, you will access the homepage of your space. Click on the green button « **Add Ad** ».

SUNBEAM TIGER MK1A

Title

The contact information on the first part of the form is already pre-entered.

Start typing the ad with the title.

To optimize Google SEO, we recommend a clear and effective title. For example, you are selling a magnificent Sunbeam Tiger MK1A. There is no point in adding any qualifier to the car. The best title should be « SUNBEAM TIGER MK1 » because that is exactly what the internet users interested in this model will type. Do not put the year, it will be displayed automatically.

Catégories

First click on « **Auto** » and then specify the category of the vehicle to be sold. In our example, the Sunbeam Tiger being an English collector's car, it's appropriate to specify it :

- Car
- Collection Car
- English

Marque

Modèle

Type 1

Type 2

Once the category is filled in, continue entering the car's brand, the model, and other fields if you know the information.

In our example SUNBEAM TIGER MK1A 1965.

Summary

The summary field is essential.

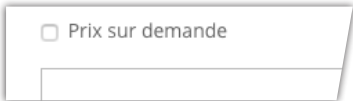

As you know, almost all the ads published on Classic & Racing are found in one or more specialized magazines either in classified ads or in main page. It's the text of the summary that serves as a description of the photo for the press, it's essential that this field is filled in with the greatest care.

Normally, the first sentence is automatically written by the system : **Sell+ Vehicle title+Year.**
Complete with the main characteristics and assets of your vehicle.

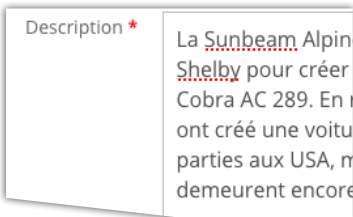

Inform the **color(s)** of your vehicle

Click on « **Dominant Color** » and choose in the palette. If the vehicle is multi-colored, click on « Contrast Color » and select the second main color in the palette again.
 If the color is « metallic » : check the box
 If there are stripes : check the box

Enter the «**price**» or check the box « Prix sur Demande » if price is on request. Our goal is to help you to sell your vehicle and there is nothing more unpleasant than an ad without a price, especially since you already know the price you hope to get for our car. This will strengthen the effectiveness of your ad and will avoid you being bothered by dreamers or curious people.

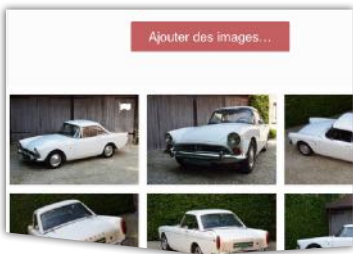

Enter a « **Description** » as complete as possible.

That must begin with the same first sentence as the Summary for better referencing : Sells + Title + year in lowercase letters with capital letter at the beginning of the sentence.

Exemple : Sell SunbeamTiger of 1965.

If you have an ad in French with its translation in another language, consider placing French first.

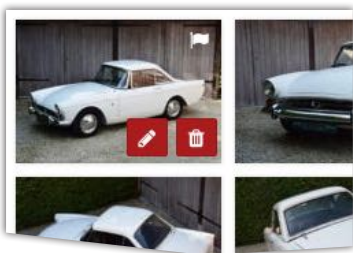

Download your pictures by clicking on **Add Images**

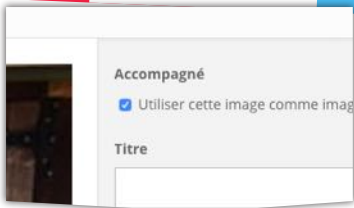

Prerequisites for photos :

Landscape format (horizontal presentation) and MINIMUM size required : 1100 pixels wide x 555 pixels high

Once the photos uploaded, organize them appropriately, going from the general presentation to the details. To do this, move them directly with the mouse to get the desired result.

The first photo should be used as « **featured photo** » (the first pic readers will see on your ad), but you need to specify it. Put the mouse on the photo you selected to be the « **featured photo** », click on the **pencil** to edit it

The photo appears zoomed in and it's essential to check « **use this image as featured image** ».

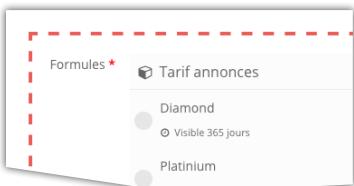

Don't forget to click on « **Update Description** » to validate your option.

To close the window, click the X on the right.

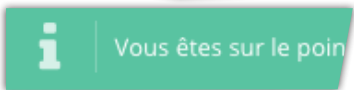

Check the « Captcha » « **I'm not a robot** ».

The « Captcha » is used to avoid ads automatically created by robots. You must therefore declare that you are not a robot by clicking the box.

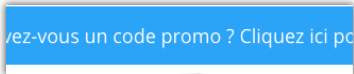

Choose the pricing formula.

Click on « **Continue** ».

Click on « **Continue** »
